23 WANDA R. ESPINOZA: I feel like right now, the
24 way the country is, that we need to leave the nuclear
25 waste where it is. Until our country solves all the
0008

1 problems at hand, I do not think any decision should be
2 made at all. I don't think anything should be made to
3 start transporting this stuff across the country.

4 I've lived in Nevada all my life, and I do not
5 see why it should be -- Nevada should have been picked
6 for this particular project.

7 And that's my main concern, is them transporting
8 it. That's the -- Because if we do have a terrorist
9 attack, with one of those trains, trucks, or whatever
10 it's going to be moved by, that's very scary.

11 So that's my main concern. And it is high --
12 high-level. And that's even scarier.

13 So, anyway, that's my main concern.
